## Cardboard Recycling

L&S Waste Management are pleased to announce that we are now able to offer routine regular collections of cardboard in your area.

Baled or loose flat cardboard is acceptable (subject to specification).

### Key Facts

- We supply you with a walk in 10 cubic metre lockable container with twin opening doors.
- You call – we collect – you pay - simple!
- Collection rates from £60 plus vat
- Cheaper than normal waste disposal!
- If you produce reasonable quantities of cardboard, why pay to have it disposed of with your waste?
- Container size – Approximately 13ft L x 6ft W x 7ft H.
- Recycling is a legal way of avoiding Tax!

### Background

In the UK cardboard is mainly used as a packaging material, especially within the manufacturing and retail industries. The UK produces around 8 million tonnes of packaging a year.

1 Tonne of recycled cardboard saves – 7000 gallons of water – 4,100 kw/ hours of electricity – 17 trees.

### Landfill Tax

Did you know that landfill tax in UK is currently £24 per tonne and will increase by £8 per year until 2010 when LFT will be £48 per tonne. This tax will dramatically effect the waste disposal costs of your business, and you **will** need to recycle more to save hard cash!

Contact Mick Balch at L&S Waste Management for further detail on 023 92 284100.
