### Introductory note

#### **This introductory note does not form a part of the permit**

The following notice, which is issued pursuant to regulation 20 and Part 1 of Schedule 5 of the Environmental Permitting (England and Wales) Regulations S.I.2007 No. 3538 (the Regulations), gives notice of the variation of an environmental permit to operate a regulated facility.

The operator is increasing their annual throughput from 50,000 tonnes per annum to 80,000 tonnes per annum. This is to cater for the local demand for the separation of soil and rubble due to the lack of inert landfill facilities in the surrounding area.

Schedule 1 of this notice lists any deleted conditions, Schedule 2 lists any amended conditions and Schedule 3 lists any conditions that have been added.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

## **Environment Agency Permitting decisions**

We have decided to vary the permit for Farlington Redoubt, Lift & Shift Skip Hire Ltd

The permit number is EPR/DP3295HN (EAWML 10226)

The operator is Lift & Shift Skip Hire Ltd

The facility is located at Farlington Redoubt, Portsdown Hill Road, Portsmouth, PO6 1BW

The decision was effective from 30th October 2009

### **Summary of the decision**

We have decided to grant a permit for the operator, subject to the conditions in the permit.

We consider in reaching that decision we have taken into account all relevant considerations and legal requirements and that the permit will ensure that the appropriate level of environment protection is provided.

The operator has applied to increase their annual throughput from 50,000 tonnes per annum to 80,000 tonnes per annum. This is to cater for the local demand for the separation of soil and rubble due to the lack of inert landfill facilities in the surrounding area.
