Dear Mr Austin,

**The Environmental Protection Act 1990, The Environment Act 1995
The Waste Management Licensing (Fees And Charges) Scheme 2005/2006**

Issue of a New Waste Management Licence

Waste Management Licence Number: EAWML/10283

Date of Issue: 24th April 2007

Issued To: Lift & Shift Skip Hire Ltd

For the Site At: Ashley Crescent, Portsmouth Road, Southampton, Hampshire.

I refer to your application for a Waste Management Licence, and now enclose your licence.

There is a right of appeal against the decision of the Environment Agency in respect of the conditions of your licence. The contact for such appeals is The Planning Inspectorate, Room 4/19, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN (Tel No 0117 372 8812, Fax 0117 372 6093).

The annual subsistence charge for this licence will apply from the date of issue, and you will receive an invoice for payment in the near future. I must emphasise that the validity of your licence is dependent upon paying your fees promptly on receipt of the Agency's invoice. Further subsistence invoices will be sent to you in April each year for as long as the licence remains in existence. Failure to pay or a delay in paying may result in revocation of your licence. Continuation of the Waste Management activities under such circumstances would constitute a criminal offence.

The licence will remain effective unless and until it is either revoked by the Agency or is surrendered. The licence may only be surrendered if the Environment Agency accepts the

surrender following an application under Section 39 of the Environmental Protection Act 1990. The Agency will only accept the surrender if it is satisfied that the condition of the land is unlikely to cause pollution of the environment or harm to human health so far as the condition is a result of the waste being treated, kept or disposed of on the land. A fee is payable.

If you want to transfer your licence, you must make an application jointly with the person you propose to transfer it to under Section 40 of the Environmental Protection Act 1990. A fee is payable. The Agency will only accept the transfer if it is satisfied that the person to whom you wish to transfer the licence is a fit and proper person to hold the licence.

You may apply under Section 37 of the Environmental Protection Act 1990 at any time to modify the conditions of your licence. A fee is payable. The Agency may modify the conditions at any time to any extent it considers desirable and which is unlikely to require unreasonable expense on your part.

I trust this letter clarifies the position with regard to the legislative requirements.

Please note that the issue of this licence does not imply that other statutory requirements, e.g. those of the local Planning Authority, have been met. If you have any questions regarding the issue of your licence, please don't hesitate to contact Mike Smith on (01962) 764957.

Yours sincerely,

NIKKI HOBBS
Authorisations Officer

Introductory note

This introductory note does not form a part of the licence

This licence permits the holder to operate a Household, Commercial and Industrial Waste Transfer Station with waste treatment at the specified location. The inputs are limited to non-hazardous and inert wastes and do not include hazardous wastes such as asbestos. Wastes of similar types will be transferred into larger containers and sent to other waste facilities for further treatment, recovery or disposal. Wastes can be bulked up for disposal or recovery elsewhere and also can be treated by sorting, separation, screening, crushing and compaction of waste. This licence does not permit the burning of any wastes, either in the open, inside buildings or in any form of incinerator.

This is a fixed licence that can be issued provided that the following criteria are met. The same conditions are applied to each licence holder carrying out this activity.

- a. The quantity of waste that can be accepted onto the site is less than 75,000 tonnes per annum.
- b. All bulking, transfer or treatment of non-hazardous waste must be carried out inside a building.
- c. Non-hazardous wastes must be stored on impermeable pavement with sealed drainage.
- d. Inert wastes must be stored on hard standing or on impermeable pavement with sealed drainage.
- e. The only discharges to controlled waters are surface water from the roofs of buildings and from areas of the site not used for the storage of wastes.
- f. The location is not within 1km of a European site (protected habitat).

This licence does not allow any emission into surface waters or groundwater. However:

- Liquids may be discharged into a sewer subject to a consent issued by the sewerage undertaker.
- Liquids may be tankered off-site for disposal or recovery.

Clean surface water from roofs, or from areas of the site that are not being used in connection with the storage and treatment of waste, may be discharged directly to surface waters, or to groundwater by percolation through the soil via a soakaway

Operational requirements specified in regulations

Some aspects of the activity are not controlled by the conditions of this licence, because the controls are specified in the Waste Management Licensing (WML) Regulations¹, or other legislation. These include:

- Regulation 4 of the WML Regulations describes the qualifications required by a technically competent person at a waste management facility.
- Section 33 (1)(c) of the Environmental Protection Act 1990 prohibits the treating, keeping or disposal of controlled waste in a manner which causes or is likely to cause pollution of the environment or harm to human health.
- Section 85 of the Water Resources Act 1991 under which it is an offence to cause or knowingly permit polluting matter to enter controlled waters (which include both surface and ground waters) unless the discharge is specifically allowed in a permit.
- The Oil Storage Regulations² require oil storage tanks to be bunded.

Public Registers

The public registers in Agency offices contain information relating to licences including the application and monitoring results. Certain information may be withheld from public registers where it is commercially confidential or contrary to national security. Some information is also available on the Agency's website (see below).

Appeals against the conditions in the licence

The licence holder may appeal to the Secretary of State against any of the conditions imposed by this licence, within 6 months of the date of issue.

Licence modifications, transfers and surrender

The Agency may modify the conditions of this licence in the future. If the licence holder wishes to modify the conditions, transfer the licence to another person or surrender the licence then he must submit an application to the Agency.

Other permits at this location

There may be other environmental permits at this location, issued to different operators/licence holders or to the same operator/licence holder for different activities. There may also be permits issued by another regulator such as the local authority. For information on any other Agency-issued permits please contact the Agency (see below).

This waste management licence does not remove the licence holder or operator from their obligations under any other legislation.

Talking to us

Please quote the licence number if you contact the Agency about this licence.

In the event of an incident the Agency may be contacted using the Incident Hotline telephone number (0800 80 70 60). Calls are free and the hotline operates 24 hours a day, 7 days a week.
