

# MEET GEORGINA

**L&S Driver**

You don't see many females driving a 32 tonne truck, but I enjoy everything about my job. Being on the road and working with the blokes, it is what makes me different.

Georgina is an HGV Driver for L&S. She is based at the L&S Aggregate rail depot in Southampton, but can mostly be seen in or around the area, running up and down the M27 in her 8 wheel tipper, delivering aggregates and muck away.

Having worked for the firm for about a year and a half, Georgina had no previous experience beforehand, but came through the comprehensive L&S' training programme, having passed her test with flying colours.

L&S drivers have a reputation for being among the best in the business, but this is a challenge that Georgina relishes.

## FUN FACTS ABOUT GEORGINA!

Outside of the day job Georgina is a bit of a petrol head and can either be found racing or under the bonnet of her race car. She especially loves to go Banger Racing and is a Champion driver in the Stock Rods formula. She also often competes in races at Matchams in Ringwood.

Of course, when behind the wheel of her L&S truck, the speed demon takes a back seat and she is always the consummate professional!
