

DID YOU KNOW L&S CONCRETE ALSO MAKE ECOBLOCKS?

L&S Concrete now produces the L&S ECOblock - a multi purpose interlocking block that is easily placed and offers an ideal solution to many permanent or temporary storage requirements.

The L&S ECOblock is made from sustainable material and the fact that they can be removed and relocated makes them a cost effective solution.

L&S ECOBLOCK IS IDEAL FOR CREATING:

- Temporary road blocks.
- Traffic calming/segregation.
- Protecting vacant sites from unwanted visitors.
- Preventing fly tipping and site security.
- Constructing silage clamps or storage bays of various sizes.

Sustainable.

Reusable.

Simple and effective to install.

Cost effective.

Block dimensions: 1500mm x 600mm x 600mm

Approximate weight (full block) 1080kg
